

CURRICULUM VITAE

Lucy D'Agostino McGowan, Ph.D.

PROFESSIONAL DATA

Primary Appointment

Department of Statistical Sciences
Wake Forest University
127 Manchester Hall
Winston-Salem, NC 27109

Office: 342 Manchester Hall
Email: mcgowald@wfu.edu
Website: www.lucymcgowan.com

Secondary Appointment

Department of Biostatistics and Data Science
Division of Public Health Sciences
Wake Forest University School of Medicine

 LucyMcGowan
 LucyStats
0000-0001-7297-9359

EDUCATION AND TRAINING

DEGREES

Ph.D. in Biostatistics, May 2018

VANDERBILT UNIVERSITY

Thesis: Improving Modern Techniques of Causal Inference: Finite Sample Performance of ATM and ATO Doubly Robust Estimators, Variance Estimation for ATO Estimators, and Contextualized Tipping Point Sensitivity Analyses for Unmeasured Confounding

M.S. in Biostatistics, December 2013

WASHINGTON UNIVERSITY IN ST. LOUIS SCHOOL OF MEDICINE

Thesis: Quantitative Assessment of the Community Research Fellows Training Program

B.A. in Religious Studies and Romance Languages, May 2012

UNC CHAPEL HILL

with Distinction and Highest Honors

POSTDOCTORAL TRAINING

Postdoctoral Fellow, 2018-2019

JOHNS HOPKINS BLOOMBERG SCHOOL OF PUBLIC HEALTH

Department of Biostatistics

Mentor: Jeffrey Leek, Ph.D.

PROFESSIONAL EXPERIENCE

2025-present	Wake Forest University <i>Associate Professor (with tenure), Department of Statistical Sciences</i>
2022-present	Wake Forest University School of Medicine <i>Secondary Joint Appointment, Department of Biostatistics and Data Science</i>
2019-2025	Wake Forest University <i>Assistant Professor, Department of Statistical Sciences</i>
2017 March-August	RStudio (Tidyverse Team) <i>Internship under Jenny Bryan developing the 'googledrive' R package</i>
2016-2017	Vanderbilt University <i>NIH Big Data to Knowledge Training Fellow</i>
2015-2016, 2017-2018	Vanderbilt University <i>Research Assistant, Department of Biostatistics and VA Tennessee Valley</i>
2015 Summer	Cleveland Clinic <i>Summer Graduate Fellow, Department of Quantitative Health Sciences</i>
2012-2014	Washington University School of Medicine

2012-2014

Research Assistant, Gutmann Research Laboratory, Department of Neurology
Washington University School of Medicine
Statistical Analyst, Department of Surgery, Division of Public Health Sciences

PUBLICATIONS

+Indicates equal contributions.

* Indicates student advisee.

PRESENTATIONS

INVITED PRESENTATIONS AT SCIENTIFIC MEETINGS

ASA Joint Statistical Meeting 2026

“Symmetric Vaccine Efficacy: Interpretable Estimation and Inference for Vaccine Trials.”

Keynote AgStat 2026

“Mind the Gap: Causal Inference is Not Just a Statistics Problem.”

Distinguished Lecture at Innovations in Design, Analysis, and Dissemination 2026

“The Role of Congeniality in Multiple Imputation for Doubly Robust Causal Estimation.”

IDWSDS 2025

“The Role of Congeniality in Multiple Imputation for Doubly Robust Causal Estimation.”

IDWSDS 2025

“The Art of Data Refinement: Severance Analyses.”

IDWSDS 2025

“Exploring the Potential of Large Language Models in Generating Saturated DAGs for Causal Inference.”

ISI World Statistics Congress 2025

“Causal Inference Is Not Just A Statistics Problem.”

ENAR 2025

“The Why Behind Including Y in your Imputation Model.”

WSDS 2024

“It’s ME hi, I’m the collider it’s ME.”

WSDS 2024

“Including the outcome in your imputation model – why isn’t this ‘double dipping’?”

IDWSDS 2024

“Power and sample size calculations for testing the ratio of reproductive values in phylogenetic samples.”

ASA Joint Statistical Meeting 2024

“Evaluating the Alignment of a Data Analysis between Analyst and Audience.”

Duke University Stroke Invited Speaker Series 2024

“Statistical Rigor in Academic Medicine: Practical Strategies for Improvement.”

Analytic Design Theory Mini-Retreat 2024

“A Framework for Developing AI-powered Negotiation Agents to Examine Producer-Consumer Dynamics in Data Science.”

Women in Statistics and Data Sciences 2023

“The ‘Why’ Behind Including ‘Y’ in Your Imputation Model.”

ASA Joint Statistical Meeting 2023

“A Visual Diagnostic Tool for Causal Inference.”

R/Medicine 2022

“ConTESSA: A Shiny Application to Assist with Evaluating the Impact of COVID-19 test-trace-isolate Programs.”

ASA Joint Statistical Meeting 2021

“Examining the Impact of Software Instruction on Completion of Data Analysis Tasks.”

Wake Forest University BI and Analytics Meeting February 2021

“Hill’s Criteria for the Data Scientist: Incorporating Causal Inference Techniques.”

Wake Forest School of Medicine Methods Conference 2020

“Applied Demonstration of the `tipr` R Package.”

JupyterCon 2020

“Equipping and Empowering Future Data Scientists with Confidence, Intuition, and Communication Skills.”

ASA Joint Statistical Meeting 2020

“The Ups and Downs of Communicating Complex Statistics.”

SDSS 2020

“Best Practices for Teaching R A Randomized Controlled Trial.”

ENAR 2020

“Tools for Analyzing R code the Tidy Way.”

ASA Joint Statistical Meeting 2019

“Challenges in Augmenting Randomized Trials with Observational Health Records.”

ASA Joint Statistical Meeting 2018

“Harnessing the Power of the Web via R Clients for Web APIs.”

ENAR 2018

“Exploring Finite-sample Bias in Propensity Score Weights.”

Data Day Texas 2018

“Making Causal Claims as a Data Scientist: Tips and Tricks Using R.”

SAS Global Forum 2017

“Streamline Your Workflow: Integrating SAS, LaTeX, and R into a Single Reproducible Document.”

SAS Global Forum 2016

“Integrating SAS and R to Perform Optimal Propensity Score Matching.”

SAS Global Forum 2015

“Using PROC SURVEYREG and PROC SURVEYLOGISTIC to Assess Potential Bias.”

SAS Global Forum 2014

“Using SAS/STAT® Software to Validate a Health Literacy Prediction Model in a Primary Care Setting.”

INVITED SEMINARS AND COLLOQUIA

Boston University 2026

“Miss(ing) Congeniality: The Cost of Incompatible Imputation Models.”

St. Jude Biostatistics and Data Science Research Forum

“The Case for Deterministic Imputation in Predictive Modeling.”

Auburn University Department of Health Outcomes Research and Policy

“Untangling Causal Effects: Understanding the Limits of Statistics.”

Wake Forest University School of Medicine Division of Public Health Sciences Grand Rounds 2024

“Why You Must Include the Outcome in Your Imputation Model (and Why It’s Not Double Dipping).”

ENAR Webinar Series Spring 2024

“When to Include the Outcome in Your Imputation Model: A Mathematical Demonstration and Practical Advice.”

Temple University Seminar 2024

“Bridging the Gap Between Theory and Practice: When to Include the Outcome in Your Imputation Model.”

National Institute for Research in Digital Science and Technology Causal Inference and Missing Data Group 2024

“Bridging the Gap Between Imputation Theory and Practice.”

CAUSE Webinar Series 2024

“Causal Inference is Not Just a Statistics Problem.”

Icahn School of Medicine at Mount Sinai Department of Population Health Science and Policy Seminar 2024

“Integrating Design Thinking in the Data Analytic Process.”

NC ASA Annual Dinner 2024

“Analytic Design Theory: Framework for Alignment Between Analyst and Audience.”

University of Houston Grand Rounds 2023

“Moving Towards Best Practice: Dispelling Statistical Myths.”

Teaching Statistics in Health Sciences (ASA) Webinar Series 2023

“Design Principles of Data Analysis.”

Duke University Department of Statistical Science Fall 2023

“Causal Quartet: When Statistics Alone Do Not Tell the Full Story.”

Appalachian State University Department of Mathematics Fall 2023

“Estimating Causal Effects: This be Madness, Yet There is Method in It.”

Open Science ReproducibiliTea 2023

“Causal Inference is Not a Statistics Problem.”

Johns Hopkins Bloomberg School of Public Health Department of Biostatistics Seminar Spring 2023

“Causal Inference Challenges that Go Beyond Statistics.”

University Massachusetts Amherst Department of Biostatistics & Epidemiology Seminar Spring 2023

“Practical Principles for Data Analysis Design.”

Duke Clinical Research Institute Fellows Seminar Series Fall 2022

“Statistical Myths and Misuse: Abandoning Outdated Statistical Practices.”

Wake Forest University School of Medicine Department of Biostatistics and Data Science Seminar 2022

“Modern Statistical Communication in the Social Media Era.”

CDC Statistical Advisory Group 2022

“The Journey to True: Accurate Statistical Communication.”

R-Ladies Baltimore 2021

“Let’s Get Meta: Analyzing your R code with tidycode.”

CDC R Group 2020

“ConTESSA: A Shiny App to Help Quantify Contact Tracing Efficacy.”

Macalester College 2019

“There and Back Again, a Data Scientist’s Tale.”

INVITED WORKSHOPS AND PANELS

ASA Joint Statistical Meeting 2026

“The Human Side of Statistical Leadership.”

AgStat 2026

“Causal Inference in R.”

Workshop on Experiments at NEOMA Business School Reims, France 2026

“Causal Inference in R.”

posit::conf 2025

“Causal Inference in R.”

ASA Joint Statistical Meeting 2025

“Building Strong ASA Student Chapters: Strategies for Growth, Inclusivity, and Maximizing Value.”

Statistical Horizons

“Understanding Statistics in Medical Literature.”

WSDS 2024

“Statistical Storytelling: Insights Into Effective Presentation Strategies.”

IDWSDS 2024

“The Art of the Invite: Crafting Successful Invited Session Proposals.”

New York R Conference 2024

“Causal Inference in R.”

ASA Statistical Computing in Action 2023

“Data Jamboree: Analyzing NYC 311 Service Requests in R.”

Women in Statistics and Data Sciences 2023

“Demystifying Invited Session Proposals.”

New York R Conference 2023

“Causal Inference in R.”

WFU Translational and Health System Science Guest Lecture 2023

“Causal Inference is Not Just a Statistics Problem.”

WFU CAT ChatGPT Learning Series 2023

“The Science of ChatGPT.”

ENAR 2023

“Kickstart your Career: How to Maximize Those Early Years.”

Posit Tidymodels Team

“Causal Inference in R.”

Rstudio::conf 2022

“Causal Inference in R.”

New York R Conference 2021

“Causal Inference in R.”

The Wake Forest 2022 Conference on Analytics Impact 2022

“Communicating During a Pandemic: What Worked, What Didn’t and What’s Next.”

National Institute of Statistical Sciences Graduate Student Conference 2022

“Tips for Statistical Communication and Data Storytelling.”

North Carolina Translational and Clinical Sciences Institute

“What is the Value of the p-value?.”

R-Ladies NYC

“Panel Discussion: Working with and Learning from COVID-19 data.”

New York R Conference 2021

“Causal Inference in R.”

ENAR 2021

“Communicating Complex Statistical Concepts to Collaborators, Stakeholders, and the General Public.”

R in Government Conference

“Causal Inference in R.”

NC School of Science and Math Data Science Panel 2020

“Data Science at Wake Forest University.”

user!2020

“Causal Inference in R.”

eCOTS 2020

“Panel: Engaging Students during the COVID-19 Health Crisis.”

ASA K-12 Virtual Workshops 2020

“Using RStudio Cloud in the Classroom.”

ENAR 2019

“Data Visualizations with ggplot2.”

Women in Statistics and Data Science 2017

“R-Ladies Panel: Improving Gender Diversity in a Male-dominated Community.”

R-Ladies Nashville 2017

“An R + GitHub Journey.”

CONTRIBUTED PRESENTATIONS AT SCIENTIFIC MEETINGS

user!2025

“Immaculate vibes, questionable code.”

ASA Joint Statistical Meeting 2022

“Design Thinking: Empirical Evidence for Six Principles of Data Analysis.”

Women in Statistics and Data Science 2021

“Bringing Data Science Communication into the Classroom.”

rstudio::global 2021

“Designing Randomized Studies using Shiny.”

ASA Joint Statistical Meeting 2017

“Contextualizing Sensitivity Analysis in Observational Studies: Calculating Bias Factors for Known Co-variates.”

useR!2017

“papr: Tinder for pre-prints, a Shiny Application for collecting gut-reactions to pre-prints from the scientific community.”

ENAR 2017

“Simplifying and Contextualizing Sensitivity to Unmeasured Confounding Tipping Point Analyses.”

ASA Joint Statistical Meeting 2016

“Assessing the Association Between Accident Injury Severity and NCAP Car Safety Ratings”

ASA Joint Statistical Meeting 2015

“Census Tract-Level Disparities: Examining Food Swamps and Food Deserts.”

141st American Public Health Association Annual Meeting 2013

“Developing County-Level Estimates of Racial Disparities in Obesity Using Multilevel Reweighted Regression.”

141st American Public Health Association Annual Meeting 2013

“Small Areal Estimation of Racial Disparities in Diabetes Using Multilevel Reweighted Regression.”

SAS Analytics 2013

“Mining Through Resumes: Utilizing SAS to Increase Efficiency and Objectivity in the Hiring Process.”

Northeast SAS Users Group 2013

“Using PROC GLIMMIX and PROC SGPLOT to Demonstrate County-level Racial Disparities in Obesity in North Carolina.”

Northeast SAS Users Group 2013

“SAS ® for Budgeting an Ideal Wedding.”

SAS Global Forum 2013

“Multilevel Reweighted Regression Models to Estimate County-Level Racial Health Disparities Using PROC GLIMMIX.”

ASA Joint Statistical Meeting 2016

“Practical Guidance and Tools for Rule-Out Sensitivity to Unmeasured Confounding Analyses.”

GRANT FUNDING

CURRENT

- 2026-2027 Wake Forest Intercampus Collaborative Grant, *Enhancing Approaches for MissingNess in Aging Research (MNAR)* (PI: **Lucy D’Agostino McGowan** and Emilie Duchesneau)
Role: PI (WFU Amount: \$30,000, Total Amount: \$30,000)
- 2026-2027 Wake Forest University Technology-engaged Creative Activity, Research, and Teaching, *WakerSpace Faculty Fellow* (PI: **Lucy D’Agostino McGowan**)
Role: PI (WFU Amount: \$3,500)
- 2026-2027 AI-Supported Experiential Learning: Scaling Feedback, Reflection, and Professional Judgment, *AI and Related Emerging Technologies Pilot Grant* (PI: **Lucy D’Agostino McGowan**, Shannon McKeen)
Role: PI (WFU Amount: \$10,050)
- 2024-2027 Patient-Centered Outcomes Research Institute, *Balanced subgroup discovery: who benefits most from an intervention?* (PI: Joseph Rigdon)
Role: Subaward PI, Co-I (WFU Amount: \$129,094, Total Amount: \$1,069,896)

COMPLETED

- 2023-2024 Wake Forest University Program for Leadership and Character, *Evaluating the impact of communicating quantitative results transparently on stakeholder trust* (PI: **Lucy D’Agostino McGowan**)
Role: PI (WFU Amount: \$3,000)
- 2023-2025 R Consortium, *Causal Inference in a Box* (PI: **Lucy D’Agostino McGowan**)
Role: PI (WFU Amount: \$1,667, Total Amount \$5,000)
- 2023-2025 Wake Forest University Faculty Development Fund, *Casual Inference Podcast*
Role: PI (WFU Amount: \$2,940)
- 2020-2021 Wake Forest School of Medicine’s Translational Research Initiative Joint Pilot Project, *Study of the Epidemiology of Pediatric Hypertension Registry* (PI: Andrew South)
Role: Co-I
- 2020 Wake Forest University Program for Leadership and Character, *Leadership and Character Course Re-design: Statistical Learning*
Role: Course Designer (WFU Amount: \$1,000)
- 2020-2021 Bloomberg Philanthropies, *Maximizing and Evaluating the Impact of Contact Tracing Programs* (PI: Emily Gurley)
Role: Consultant (Amount: \$15,000)
- 2019-2020 Wake Forest University Center for the Advancement of Teaching SoTL Seed Grant Fund, *A study of various methods to teach R programming* (PI: **Lucy D’Agostino McGowan**)
Role: PI (WFU Amount: \$940)

SOFTWARE

AUTHOR & MAINTAINER

quartets: An R package that contains pedagogical datasets for statistical concepts (2023-2024)

ConTESSA: A Shiny Application developed in collaboration with the John Hopkins Infectious Disease Dynamics group to help contact tracing program managers. (2020-2023)

pald: An R package to calculate partitioned local depth (PaLD) probabilities for clustering (2019-2024)

tidycode: An R package to analyze lines of R code using tidy principles. This allows you to input lines of R code and output a data frame with one row per function included. Additionally, it facilitates code classification via included lexicons. (2019-2020)

tipr: An R package with tools for conducting tipping point sensitivity analyses. (2018-2024)

contributr: A Shiny Application developed in collaboration with Maelle and rOpenSci for finding beginner GitHub issues to contribute to. (2017)

papr: Tinder for pre-prints, a Shiny Application developed in collaboration with Jeff Leek and Nick Strayer for collecting gut-reactions to pre-prints from the scientific community (2016-2017)

AUTHOR

* Indicates package is maintained by former student advisee

phylosamp: An R package that implements novel tools for estimating sample sizes needed for phylogenetic studies, including studies focused on estimating the probability of true pathogen transmission between two cases given phylogenetic linkage and studies focused on tracking pathogen variants at a population level. (2024)

rcanvas: An R package for interfacing with the Canvas API (2023)

shinysurveys*: An R package to easily create and deploy surveys in ‘Shiny’. This package includes a minimalistic framework similar to ‘Google Forms’ that allows for url-based user tracking, customizable submit actions, easy survey-theming, and more. (2021)

matahari: An R package to conveniently log everything you type into the R console. Logs are stored as tidy data frames which can then be analyzed using ‘tidyverse’ style tools. (2019)

datasauRus: An R package made in collaboration with Steph Locke consisting of The Datasaurus Dozen, a set of datasets with the same summary statistics. They retain the same summary statistics despite having radically different distributions. The datasets represent a larger and quirkier object lesson that is typically taught via Anscombe’s Quartet. (2017)

googledrive: An R package that interfaces with Google Drive from R, allowing users to seamlessly manage files on Google Drive from the comfort of their console. (2017)

meetupr: An R package authored and maintained by R-Ladies to interface with the Meetup API (2016)

CONTRIBUTER

tableone: An R package to create ‘Table 1’, i.e., description of baseline patient characteristics, which is essential in every medical research. Supports both continuous and categorical variables, as well as p-values and standardized mean differences. Weighted data are supported via the ‘survey’ package. (2022)

xaringan: An R package to create HTML5 slides with R Markdown and the JavaScript library ‘remark.js’ (2021)

cowsay: An R package that allows printing of character strings as messages/warnings/etc. with ASCII animals, including cats, cows, frogs, chickens, ghosts, and more. (2017)

RJafroc: An R package for analyzing data acquired using the Receiver Operating Characteristic paradigm and its extensions. (2016)

TEACHING EXPERIENCE

WAKE FOREST UNIVERSITY

- (Spring) BEM 392: Seminar in Decision Analytics (2026)
- (Spring) STA 312: Linear Models (2026)
- (Fall) STA 312: Linear Models (2025)
- (Fall) STA 363: Statistical Learning (2025)
- (Spring) BEM 392: Seminar in Mathematical Business Analysis (2025)
- (Spring) STA 779: Causal Inference (2025)
- (Spring) BEM 392: Seminar in Mathematical Business Analysis (2024)
- (Spring) STA 112: Introduction to Regression and Data Science (2024)
- (Fall) STA 112: Introduction to Regression and Data Science (2023)
- (Fall) STA 779: Causal Inference (2023)
- (Spring) BEM 392: Seminar in Mathematical Business Analysis (2023)
- (Spring) STA 363: Statistical Learning (2023)
- (Fall) STA 112: Introduction to Regression and Data Science (2022)
- (Spring) BEM 392: Seminar in Mathematical Business Analysis (2022)
- (Spring) STA 379/679: Causal Inference (2022)
- (Fall) STA 312: Linear Models (2020)
- (Fall) STA 363: Statistical Learning (2020)
- (Spring) STA 363: Statistical Learning (2020)
- (Fall) STA 212: Statistical Modeling (2019)

VANDERBILT UNIVERSITY

- Frank Harrell's Regression Modeling Strategies Teaching Assistant (2017)
- Statistical Collaboration in Health Sciences Teaching Assistant (2015)
- Modern Regression Analysis Teaching Assistant (2015)
- Principles of Modern Biostatistics Teaching Assistant (2015)

WASHINGTON UNIVERSITY IN ST. LOUIS

- Introduction to SAS Teaching Assistant (2013)
- Introduction to Clinical Epidemiology Teaching Assistant (2013)
- Randomized Controlled Trials Teaching Assistant (2013)

ONLINE COURSES

- Measuring and Maximizing Impact of COVID-19 Contact Tracing (2020-2022)
- Creating dynamic dashboards with the shinydashboard R package (2019)
- Understanding data and statistics in the medical literature (2019)
- ggplot2 in 2: Learn the ggplot2 R package in 2 hours (2019)

STUDENT ENGAGEMENT

UNDERGRADUATE THESES

- Kiyo Takahashi, *Trust in Data Analysis* (2023-2024)
- Noah Edwards-Thro, *NBA Player Clustering Using Gaussian Mixture Modeling* (2021-2022)
- Jonathan Trattner, *Tools for Designing Online Randomized Trials Using the Shiny Framework* (2020-2021)

- Nuri Park, *Best Practices for Teaching R: A Randomized Controlled Trial* (2020-2021)
- Hannah Mendoza, *The Impact of Disclosing Uncertainty on Decision Making: A Randomized Controlled Trial* (2020)

INDEPENDENT STUDIES

- Ives Xue, *Introducing time ordering to combat collider bias* (2024)
- Fiona Zhang, *Fitting infectious distributions to asymptomatic antigen testing data* (2024)
- Chester Pan, *Introduction to Large Language Models* (2023-2025)
- James Zhao, *Bootstrap Intervals for Post-Imputation Inference* (**Course Credit**) (2023)
- Shawn Lang, *Propensity Score Models* (2022)
- Hannah Luebbering, *Studies on Teaching Programming: A Literature Review* (2020-2021)
- Iris Liu, *Building a Dashboard and Gaining Insight into Reynolda Museum Data*, URECA Wake Forest Research Fellowship (**Funded Research**) (2020)
- Sophia Fang, *Understanding Statistics and Data in The Medical Literature Course Update* (2020)
- Sofia Blankenship, *Building a Shiny Applications* (**Course Credit**) (2019)

COMMITTEES

Mayank Arya (Chair, 2026 M.S. Statistics), Noah Couch (Chair, 2026 M.S. Statistics), Ashley Mullan (2024 M.S. Statistics) and Abhi Jain (2022 M.S. Mathematical Statistics)

AWARDS

2026-2029	Ollen R. McNalley Faculty Fellowship
2026	Distinguished Lecture at Innovations in Design, Analysis, and Dissemination
2025	Emerging Leader Award, Committee of Presidents of Statistical Societies
2023	ASA Teaching of Statistics in the Health Sciences Young Investigator Award
2023	ASA StatsForward Fellow
2023	Featured Speaker, North Carolina Chapter of the ASA Annual Dinner
2020	JupyterCon Invited Keynote Speaker
2019	Winning team, ASA Leadership Challenge
2018	Vanderbilt Biostatistics Travel Award (ENAR)
2017	NASA Datanauts, Class of 2017
2017	useR!2017 Young Academic Scholarship
2017	Caucus for Women in Statistics Travel Award
2016	First Place, GSS Student Data Challenge, ASA Joint Statistical Meeting
2016	Second Place, SPAAC Poster Competition, ASA Joint Statistical Meeting
2016	Southern Startup Internship Program in Data Science (South BDHub)
2016	Vanderbilt Commodore Award in Biostatistics
2015	First Place, GSS Student Data Challenge, ASA Joint Statistical Meeting
2015	Prezi Student Ambassador
2014	SAS Student Scholar, PharmaSUG
2014	SAS Student Ambassador, SAS Global Forum 2014

2013	First Place, Student Research Competition, 141st APHA Annual Meeting
2013	Ellis R. Ott Scholarship: ASQ Statistics Division
2013	Best Contributed Paper in the Statistics and Data Analysis Section at SAS Global Forum
2013	SAS Student Scholar, NESUG
2013	SAS Student Ambassador, SAS Global Forum 2013
2012	Gertrude M. Cox Scholarship for Women in Statistics Honorable Mention
2012	NIAF Jim Cantalupo Scholarship
2011-2012	National Society of Leadership and Success
2011	Dunlevie Honors Undergraduate Research Award
2010	Programma Ponte Scholarship
2010	Newman Scholar
2009-2012	UNC Dean's List
2008-2012	UNC Public Service Scholar

PROFESSIONAL ACTIVITIES

INTERNAL SERVICE

Department of Statistical Sciences

2025-2027	Co-director, Decision Analytics Major
2025-2027	Co-director, Data Science Certificate
2023-2025	Committee member, Temporary Faculty
2023-2024, 2025-2027	Chair, Colloquium Committee
2022-2023, 2025-2026	Committee member, Department Awards Committee
2022-2023	Committee member, Colloquium Committee
2020-2025	Statistics Major Advisor
2020-2021	Committee member, Statistics Hiring Committee
2020-2021	Committee member, Postdoc Hiring Committee
2020	Math Club Faculty Co-Chair
2019-2020	Faculty advisor, Wake Forest University ASA Student Chapter
2019-2020	Committee member, Statistics Curriculum Committee

College-wide

2024	Chair, Melson Doctoral Student Award Committee
2022-2026	Secretary, Graduate Council
2020-2022	Wake Forest College Covid-19 Steering Committee Working Group
2020-2021	Peer Learning Community Facilitator, WFU Center for Advancement of Teaching

EXTERNAL PROFESSIONAL SERVICE

2026 Byar Award Committee Co-Chair, Biometrics Section, ASA
2025-2027 COPSS-NISS Leadership Webinar Committee
2025 useR!2025 Conference Programming Committee
2024 PCORI Grant Merit Reviewer
2022 useR!2022 Conference Programming Committee
2020-2022 Committee of Presidents of Statistical Societies (COPSS) Communications Officer
2014 Abstract reviewer, Applied Public Health Statistics, American Public Health Association

Service on Editorial Boards

2026 Editor, rOpenSci
2023-2026 Associate Editor for Reproducibility, JASA
2023-2025 Associate Editor, R Journal
2019-2026 Associate Editor (Social Media), The American Journal of Epidemiology

Service for the American Statistical Association

2024 Past-chair, ASA Section on Statistical Graphics
2023 Chair, ASA Section on Statistical Graphics
2022 Chair elect, ASA Section on Statistical Graphics
2021 Chair, ASA Committee on Women in Statistics
2020 Vice-chair, Chair-elect, ASA Committee on Women in Statistics
2019-2023 Committee member, ASA Computing and Graphics Student Paper Award Committee
2019-2021 Council of Sections Representative, ASA Section on Statistical Computing
2019 Committee member, ASA Committee on Women in Statistics
2019 Interim Program Chair, ASA Statistics Communication Interest Group
2018 Committee member, ASA Women in Statistics and Data Science Service Project
2017-2018 President, Nashville ASA Student Chapter
2017 Panelist, Inaugural ASA Student Chapter Workshop
2016-2017 Vice President, Co-founder, Nashville ASA Student Chapter

Service for the International Biometric Society (ENAR)

2021-2023 Council on Emerging and New Statisticians Liaison, ENAR Regional Advisory Board
2020-2023 Member, ENAR Regional Advisory Board
2020-2021 Committee member, ENAR Program Committee

Referee

Biostatistics, The American Statistician, BMJ Open, Journal of Statistical Software, rOpenSci, American Journal of Epidemiology, Statistics in Medicine, Journal of the Royal Statistical Society, Nature Biotechnology, PLOS One, Observational Studies, Biometrics, The R Journal, Journal of Statistics and Data Science Education, Data Science in Science, Stat, The International Journal of Psychology and WIREs Computational Statistics

Chaired Conference Sessions

2026 Making an Impact through Statistical Leadership: Methods, Collaboration, and Beyond, JSM 2026

2025 JSM 2025	Data-Driven Impact: The Evolving Role of Statisticians and Data Scientists in Academic Medicine,
2024	Statistical Methods For HIV Research: Battling An Epidemic With Linked, Missing, And Error-prone Data, WSDS 2024
2023	Improving Estimation of Difficult to Measure Health Outcomes, ENAR 2023
2022 Conference	Educating Character in the Social Sciences Panel, WFU Educating Character Across the University

OUTREACH

2022-2024	Founding co-organizer, Wake Forest University Florence Nightingale Day
2022	Co-organizer, WFU Conference on Communicating with Healthcare Data
2022	Chair, Data Jamboree ASA Section on Statistical Computing Symposium
2019-2025	Casual Inference Podcast co-host, sponsored by the American Journal of Epidemiology
2017-2018	President, Vanderbilt Biostatistics Graduate Student Association
2017-2018	Abstract reviewer, R-Ladies Global
2016-2019	Co-founder, Co-organizer, R-Ladies Nashville
2016-2017	President, Vanderbilt Graduate Student Council
2016-2017	Vice President, Vanderbilt Biostatistics Graduate Student Association
2016	useR Student Volunteer
2015-2016	Tutor, Tennessee Office of Refugees
2015	Scholar, Scholarship of Teaching and Learning
2014-2015	Vice President of Social Affairs, Vanderbilt Graduate Student Council
